## Career Objective

To obtain a position in the tech field where I can apply my programming skills and grow my career in Artificial Intelligence and Data Science.

## Education

### Mewat Engineering College, Nuh

Bachelor of Technology in Computer Science and Engineering

Aug 2022 – Present

CGPA: 7.16 / 10

## Relevant Coursework

Artificial Intelligence & Machine Learning, Internet of Things (IoT), Computer Networks, Software Engineering, Data Structures

## Projects

### Python Virtual Assistant | Python, Ollama, Voice Recognition, APIs

- Designed and developed an intelligent virtual assistant capable of understanding voice commands and answering questions in real-time.
- Integrated Ollama API to process natural language queries and deliver accurate, conversational responses.
- Programmed it to open all major social media platforms (Instagram, YouTube, LinkedIn, Telegram, etc.) using voice commands.
- Implemented sound recognition for wake word detection and speech-based interaction.
- Provides both voice and text-based feedback for better user experience.

## Technical Skills

Languages: Python, SQL, HTML

Tools & IDEs: VS Code

Areas of Interest: Artificial Intelligence, Machine Learning, Internet of Things
